Miss Daquioag's
At-Home Learning

Dear Friends & Families,
I really want to tell you how fun and exciting it has been receiving pictures, videos, and completed work that you have been working on this week! It's definitely not the same as in the classroom, but at least I get to see some of the things that you have been working on at home! Please know that I am doing the best I can to support all 21 of you. Again, please continue to stay home & stay healthy!
Smiles, Miss Daquioag

Week 2
Kindergarten Resources

Yaaayyy! We made it to Week 2 ☺ I hope your child is engaged in a lot of the fun activities that have been provided to you. Please check them out as there are a bunch of new things that I was so excited to use!

If you can, please pick something from the resources daily, then head to the Kindergarten Choice Board ☺

KINDERGARTEN CHOICE BOARD

Week 2 Kindergarten Choice Board is available for you ☺ The activities on Seesaw will <u>not be available until 8:30 a.m. Monday, March 30.</u>

How do you use it?
If you can, please <u>choose 1 activity from each column daily</u>. If you have more time and finished from each column, you may choose to do another.

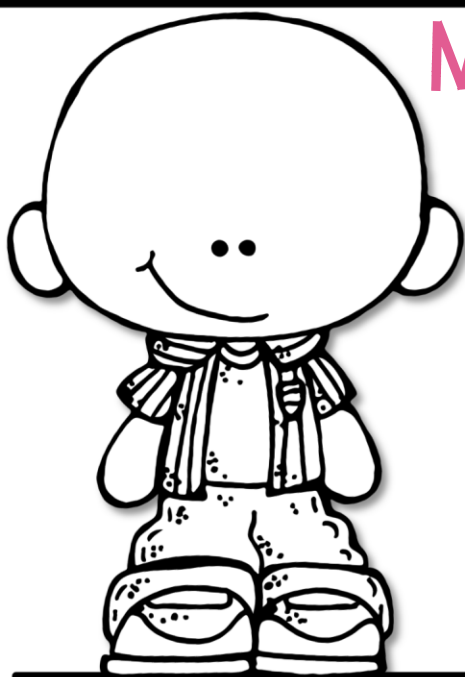

KINDERGARTEN CHOICE BOARD SURVEY

Once again, these resources and activities are OPTIONAL. I know that it is a lot. My goal is to promote student growth and relationships, support families, and provide a variety of quality resources that your family can choose from. Please don't feel pressured to do all the activities. Let's continue to communicate and work together! I am happy to support in any way I can! We are in this TOGETHER!

I will send out another <u>survey,</u> but this time for the <u>Kindergarten Choice Board</u>. Any feedback (good or bad) is greatly appreciated. These plans are subject to change as feedback is received. We are sailing in uncharted waters and I appreciate your patience and collaboration during this time.

I was not able to link some of the resources to the board, so I attached them to the email.

STORY TIME WITH MISS DAQUIOAG & MR. JR

Mr. JR and I agree that we miss reading to you EVERY DAY! While all my favorite books are quarantined in the classroom, I still have more in my personal library. I will post throughout the week in Seesaw (some in the morning & some before bedtime).

"ZEARN IS TOO EASY"… DO YOU HEAR THAT OFTEN?

Has your child been working on Zearn in Clever? Have they been questioning why they are doing the same activities over and over again? Here's why: Zearn Math for Kindergarten is a full curriculum designed to build strong math foundations and be developmentally appropriate for young students. Digital Activities are short, engaging, activities designed to develop kindergarteners' number sense. Activities follow an intentional progression, starting with Numbers to 5 and building to Numbers to 10, Numbers to 15, and Numbers to 20.

After talking to my colleagues, I found a way that I can move your child to the next section (not recommended, but possible). I encourage your child to be fluent before I move them up to the next section. I highly encourage your child to complete as much as they can and PERSEVERE before I make the move.

Please feel free to send me an email with this request to move them so that they can still practice number sense in ZEARN.
