We have learned that we are different shades of brown. We can get our color from:

1. Our parents/ancestors.
2. From the sun.
3. Melanin – tiny grains of coloring in your skin (darker means the melanin in your skin is really busy and active!)

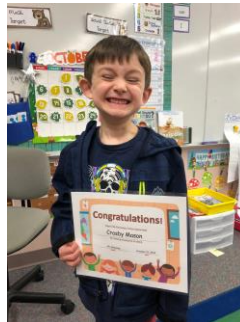

UPCOMING DATES

- **Tuesday, October 29:** Photo Retakes (Please bring photos)
- **Thursday, October 31:** Scarecrow Parade at 9:30 a.m. / Fall Celebration 2:00 p.m.

CHARACTER TRAIT:

Acceptance

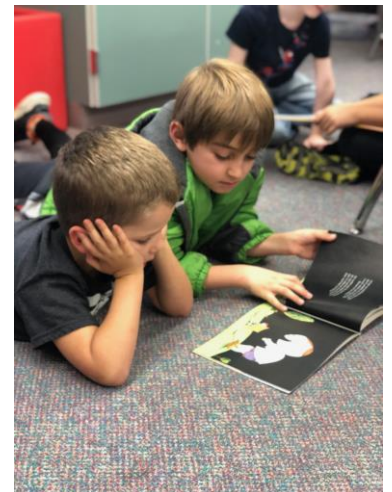

Why fit in when you were born to stand out! Congratulations Crosby & Charlotte for showing us what it means to be truly accepting!

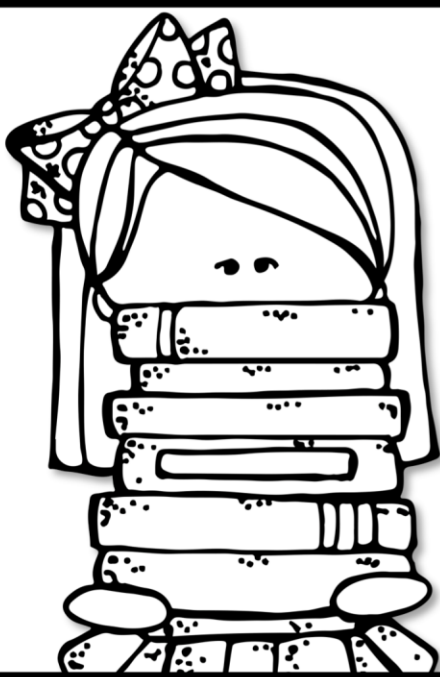

Mrs. Stratford's 3rd Graders

This year we have "buddied" up with Mrs. Stratford's 3rd graders. This is an excellent way for students to improve their reading and fluency skills and gain broader literacy and social benefits. Our kids LOVED it and even got to read a book to their 3rd grade buddy!

SIGHT WORD PRACTICE:

and
I
can
like

We have been practicing sight words by:
"Read It, Say It, Spell It, Fix It, Build It, and Write It!"

The biggest challenge is writing it in sentences 😊 We will practice this next week.

LETTER OF THE WEEK

This week we learned the letter sound /w/. We learned how to spell a word by stretching the word and listening carefully to what sounds we hear.

ASK YOUR CHILD: What object begins with the letter Ww? Have them stretch the word and spell it

WRITING FOCUS

We have been learning so much about how our pictures need to have labels. A label tells the reader about the pictures. We have been practicing how to label things around our classroom.

ASK YOUR CHILD: What does it mean to add details and labels to your pictures? Why is it important?

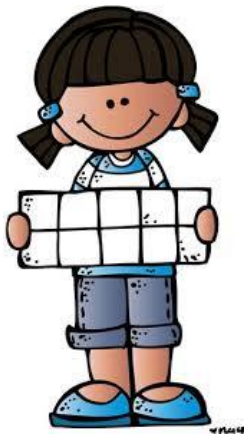

READING & MATH FOCUS

Reading: We have been learning how to read the words in books. We are tracking the words we read and discussing what we read. We are "adding a pinch of me" by making a connection to the story. We are ready for Reading Strategies! **ASK YOUR CHILD:** What does this story remind you of? (After you read a book)

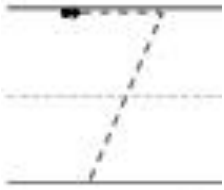

Math: We have been learning all about counting objects carefully and accurately by touching each object/picture. I've introduced a few math games such as "Subitizing War Cards", Building Towers with cubes and shapes and Number Bingo. Please have your child practice writing numbers 1-10 correctly 😊 Ask your child to say the rhymes as they write.

NUMBER RHYMES

(Please practice writing these numbers at home)

“A straight line and down from heaven; that’s the way we make a 7!”
